## Master Prac Trainings

Master Practitioner Training is about mastery: refining and further enhancing Practitioner skills while deepening your knowledge of unconscious processing and change potential. Go beyond remedial behavioral changes to levels of more profound generative transformation. You'll explore Meta Programs, sorting and thought patterning which Tad James refers to as 'the basis of personality'. Learn the nature and importance of Values and Beliefs. Calibrate to Motivation Orientation and learn to apply powerful techniques to restore choice and create opportunities over a vast spectrum of human behaviour. Broaden your understanding of culture and systemic processing through Clare Graves brilliant 'Spiral Dynamics' model. Master Practitioner training delves freely into realms of advanced principles underlying the change process and heightens your awareness of fundamental factors and causes at the root of human experience. Your heightened awareness empowers new levels of understanding and behaving. Expand your fascinating journey of transformation and discovery of boundless potential for growth and development!
